SEALSYSTEMS
ENTERPRISE OUTPUT SOLUTIONS

SEAL Systems User Meeting June 17th & 18th

Program 2024

Hyper Secure Output Management – Setting the right course with SEAL Systems.

Monday, 17.06.2024

12:00 am   *Check-In | Partner Exhibition*

Welcome to our User Meeting!
Please check in at our event desk. You will then have
the opportunity to visit our partner exhibition in the foyer.

1:00 pm   *Workshop 1:*   **DE**
New Mobile Client

Join us for a live presentation of our new
Mobile Client for PLOSSYS®! Learn what the
new Client is able to do, what the solution
architecture looks like and which use cases
are possible.

Carlos Schramer, SEAL Systems AG
Room: Königsturm 1+2+3

Workshop 2:   **DE**
PLOSSYS® Web Portal

We will introduce you to the new PLOSSYS®
Web Portal and discuss possible use cases.
In addition, we will explain how „custom
metadata" can be handled with the new web
portal.

Hans Gottschall, SEAL Systems AG
Room: Weisser Turm 1+2

2:30 pm   *Break | Partner Exhibition* ☕

2:45 pm   *Partner ‚Pecha Kucha': Get to know our Key Partners*   **DE**

Our partner network includes many companies that bring significant benefits to our customers
by working with SEAL Systems. We would like to give these companies a stage, to introduce
themselves to you in an entertaining and precise manner. Following the example of the so-
called „Pecha Kucha", all companies of the partner exhibition will present themselves here
as well.

All exhibiting partners
Room: Königsturm 1+2+3

4:00 pm   *Break* ☕

4:20 pm   *Joint Departure for a Sightseeing Tour*
in the Historic VAG Trams

Meeting Point for Joint Departure at 4:20 pm:
Foyer of the NH Collection Hotel (Entrance)

Departure City Tour at 4:30 pm (if you miss the group):
Tram Island, located directly across from Nuremberg Central Station
(Bahnhofsplatz 6, 90403 Nuremberg, Germany)

Dinner at approx. 6:00 pm (if you miss the City Tour):
Historic Tram Depot St. Peter
(Schloßstraße 1, 90478 Nuremberg, Germany)

Tuesday, 18.06.2024

8:00 am | **Check-In | Partner Exhibition**

Welcome to the User Meeting! Guests who arrive in Nuremberg today are kindly requested to check in at our event desk. Thank you very much! Afterwards, as a guest at the NH Collection Nuremberg City, you will have the opportunity to visit our partner exhibition in the foyer.

9:00 am | **Welcome**   DE EN

Our Executive Board would like to welcome you to our User Meeting and give you an insight into the topics that move SEAL Systems.

Johannes Hesel & Hans Jürgen Meier, SEAL Systems AG
Room: Königsturm 1+2+3

9:45 am | **Software as a Service**   DE EN

A few years ago, people were talking a lot about moving solutions to the cloud and obtaining them as a service. However, when it comes to business-critical processes – which include output management – many customers have not yet risked a solution from the cloud. This is now changing. SAP wants to migrate its customers from on-premise solutions to cloud-based solutions. Everyone is talking about RISE with SAP. Find out how SEAL Systems can support you here.

Sven Hartinger & Thomas Tikwinski, SEAL Systems AG
Room: Königsturm 1+2+3

10:30 am | **Break | Partner Exhibition**

11:00 am | **Roadmap Radar – What have we been working on, what's coming soon?**   DE EN

What is a roadmap radar? The participants of the last Customer Day already know about this: Thomas Tikwinski, CTO at SEAL Systems, gives an insight into what our development team is currently working on and which topics are on our mid-term agenda.

Thomas Tikwinski & Matthias Müller, SEAL Systems AG
Room: Königsturm 1+2+3

**Enterprise Output Solutions for the SAP Cloud Solutions**   DE

HANA Enterprise Cloud, S/4 HANA Cloud Edition, RISE with SAP, GROW with SAP, SAP-BTP, … it's becoming increasingly difficult to keep up to date with the current and future solutions offered by SAP and what this means for document and information distribution. In this presentation, we will clear the air for you.

Lars Palitzsch & Basem Nime, SEAL Systems AG
Room: Weisser Turm 1+2

11:45 am | **Output Management from the Cloud – Case Study Jungheinrich**   DE EN

Due to increased security requirements, integrating external locations into the output processes without a VPN connection is a challenge that more and more of our customers are facing. Find out how Jungheinrich has solved this problem with SEAL Systems.

Alexander Pupp, Jungheinrich AG
Room: Königsturm 1+2+3

PLOSSYS® Configurator – Installation and Configuration made easy   DE

The PLOSSYS® configurator is designed as a platform product and will replace and standardize our previous configuration tools. We provide information on the current status of development and our next steps.

Carlos Schramer, SEAL Systems AG
Room: Weisser Turm 1+2

12:30 am | **Lunch**

Tuesday, 18.06.2024

1:30 pm

A Different Kind of Conversion Solution – Case Study `DE` `EN`

„We have to change logos and disclaimers for several 100,000 existing documents in a very short time. Can you help us?" This was one of the requests we received. We will show you how we helped the customer to solve this problem automatically.

Uwe Wächter, SEAL Systems AG
Room: Königsturm 1+2+3

Secure and fast with PLOSSYS® and the latest IBM z16 servers – Case Study Topdanmark `EN ONLY`

Topdanmark, Denmark's largest insurance company, needed to replace its secure printing solution at very short notice. Due to the security requirements, this solution was to be implemented on zLinux. SEAL Systems and Genius Bytes not only implemented the joint solution in a very short time but also improved the output performance by a factor of 7!

Elise Bundgaard, Topdanmark EDB A/S & Christopher Fabritius, IBM Denmark
Room: Weisser Turm 1+2

2:15 pm

PLOSSYS® Distribution Engine `DE` `EN`

Information and documents are increasingly distributed electronically. In order to meet the flexible requirements of our customers with standardized solutions, we have created the PLOSSYS® Distribution Engine, a solution that can be used to configure digital distribution processes. Find out which distribution processes are already covered by the standard and how you can use the PLOSSYS® Distribution Engine for digital distribution.

Wolfgang Lang & Torsten Pfeiffer, SEAL Systems AG
Room: Königsturm 1+2+3

Hyper Secure Output Management `DE`

Almost every week, we are informed by customers that they have been the victim of a hacker attack. It is not surprising that IT and cyber security is one of the top issues for CIOs. Many processes in companies are currently being examined and checked for security, but output management is often ignored. But these solutions are used to process confidential personal data as well as highly confidential company information. We can offer output solutions that meet the highest security requirements. Learn more about it!

Thomas Tikwinski & Johannes Hesel, SEAL Systems AG
Room: Weisser Turm 1+2

3:00 pm

Break | Partner Exhibition

3:30 pm

Shaping the future: Harmonized through the implementation of the standard – Case Study RUAG `DE` `EN`

We present a comprehensive solution for document preparation and distribution for SAP in the context of an exciting project at RUAG.

Beno Schaller, RUAG AG
Room: Königsturm 1+2+3

The Future of Mobile Printing `DE`

Mobile printing is the new normal – in hotels, trains, the home office. Mobile devices are in everyone's hands – only the printer is still in the office. Has it become obsolete? If not, how and where are we going to print in the future? Securely, everywhere, always? What consequences would this have for output in the company? We will take a look at the future of mobile printing.

Wolfgang Lang, Katrin Kreher & Fiona Rupp, SEAL Systems AG
Room: Weisser Turm 1+2

4:15 pm

Farewell – End of our User Meeting `DE` `EN`

Time for a conclusion, final words and an outlook.

Johannes Hesel & Hans Jürgen Meier, SEAL Systems AG
Room: Königsturm 1+2+3
